Personnes:	1 - 5
Chambres à coucher:	1
Cité aux alentours:	Ierapetra

Description & composition

Beautiful, new, small-scale apartment complex in the centre of the village of Mirtos.

Villa Myrthe exists out of 6 two rooms apartments suitable for 2-5 persons. Not a single apartment is the same but they all have a living room with sofa beds, diner table and a very complete kitchen. The sleeping room has a 2 persons bed and a lot of cupboard space, a nice marble bathroom with shower, washbasin and a toilet. Of course there is also a balcony (with village- or sea view) or terrace. There is a television with satellite reception and there is air-conditioning (on payment). The apartments are of a special class. Because of the central location in the village it is suitable for everybody, except unfortunately for wheelchair users. The distance to shops and restaurant is about 75 meters a couple of meters more and you are at the boulevard. To the other side there is a bus stop at about 75 meters. Because the apartments have central heating they are also suitable to stay in the wintertime. For a long stay in the (soft) winter we have special fares, mail us for more information!

Le cadre du logement & activités

MIRTOS: this typically Greek village is located 14 kilometres westwards from Ierapetra, the most southern city of Europe. Mirtos has approx. 700 inhabitants, in summer as well as in winter. The inhabitants have a lot of respect for their village, their facilities and their traditions. One of those is their hospitality, which makes the tourists feel very well at home in Mirtos. The village has a couple of supermarkets, but also a butcher, bakery, some tourist shops and of course the so-called periptero, a typical Greek kiosk. There are several kafenions (pubs), restaurants and outdoor cafés in the centre of the village or at the beach.

Mirtos has an attractive boulevard and some excellent beaches. On one of those beaches, in Mirtos itself, beach chairs and parasols are for rent. But also the beaches in the direct neighbourhood are attractive.

Away from the beach it is lovely to walk. A bit further from the village there are some lovely gorges which are certainly not inferior to the famous Samaria gorge. Mirtos is also excellent to start your car or scooter trip and is very suitable for families with as well young as older children. For that matter, guests without children feel at home just as much.

On the beach there are possibilities to rent a catamaran, sailboat, surfboard and pedal boats. The environment is very well suited for trips by car, possibly by bike if you are a trained biker.
